SUMMARY

I am a hardworking and motivated engineering student looking for an opportunity to start my career in the software industry. I have knowledge of programming, web development and basic machine learning. I want to improve my technical skills and gain practical experience by working on real-world projects.

EDUCATION

VGU Engineering University, Jaipur
Bachelor of Technology – Computer Science Engineering, CGPA: 7.4/10 *2024 – Present*

RBSE Board
Class XII, Percentage: 76%

RBSE Board
Class X, Percentage: 81%

EXPERIENCE

Fresher

Currently pursuing B.Tech and looking for internship or entry-level opportunities in software development.

PROJECTS

Student Placement Portal

- Created a web application for students to manage placement-related information.
- Added login and registration functionality.
- Used React and Node.js for development.
- Connected the application with MongoDB.

Basic ML Prediction Project

- Developed a simple machine learning model using Python.
- Used a dataset to train and test the model.
- Performed basic data preprocessing and prediction.

TECHNICAL SKILLS

Languages: Java, Python, C
Web: HTML, CSS, JavaScript, React
Database: MySQL, MongoDB
Concepts: OOP, DBMS, Data Structures
Tools: Git, GitHub, VS Code
Communication
Teamwork
Problem Solving
Time Management
Quick Learner

CERTIFICATIONS

Python Programming – Online Course
Web Development – Online Course
Introduction to Machine Learning – Online Course

ACHIEVEMENTS

Participated in college-level technical events. Participated in a hackathon. Practiced coding problems on online coding platforms.

INTERESTS

Software Development | Artificial Intelligence | Machine Learning | Web Development
