VERIFIED CAPSTONE PROJECT - TIER 1 & 2 EVIDENC

SmartPrep - AI-Powered Interview Preparation Platform

Anuj Bhalothia (Candidate ID: SP-2026-9041)
SkillProof Autonomous Engineering Institute

Verified Date: August 10, 2026 **[VERIFIED] SkillProof Digital Attestation**

1. Executive Summary & Problem Statement

SmartPrep is an enterprise-grade AI technical interview simulation and coding evaluation system. Designed to eliminate interview preparation bias, it conducts real-time adaptive defense questioning, tracks speech confidence, and executes candidate code inside sandboxed ephemeral containers.

2. System Architecture & Tech Stack

- Frontend: React 18, Vite, TailwindCSS, WebRTC Audio/Video Compositing Engine
- Backend: Spring Boot 3.2, Java 21, Spring Security (JWT Auth), Hibernate JPA
- Database: PostgreSQL with JSONB schema for rubric evaluations, Redis caching layer
- LLM Orchestration: Google Gemini 1.5 Pro via Vertex AI SDK for context-aware defense questioning

3. Quantitative Verification Metrics

- Unit & Integration Test Coverage: 94.2% across 86 test suites
- Sandboxed Code Execution Latency: p99 < 320ms
- Tab-Switch Anti-Cheat Detection Accuracy: 100% in automated E2E suites
- GitHub Repository: github.com/anuj-bhalothia/smartprep-ai (420+ commits, 38 PRs reviewed)

4. Cryptographic Proof of Authorship

Audit Signature: SHA-256: 7f8a91c0e3b24d6589fa12b84732c5690dfa43817456bb2010cfa82390415a77
Status: VERIFIED & SEALED BY SKILLPROOF ATTESTATION ENGINE
